# MOCHAMAD IRFAN HIDAYAT

**JUNIOR PROGRAMMER | FULL-STACK WEB DEVELOPER**

Bandung, Indonesia | +62895346176572 | mochamadirfan0211@gmail.com | github.com/fanhdt

## PROFESSIONAL SUMMARY

Fresh graduate in Multimedia Education with hands-on experience building and maintaining web applications using PHP/Laravel, JavaScript/TypeScript (Vue.js, React, Next.js), and Python. Experienced with REST APIs, MySQL and PostgreSQL databases, and Git-based workflows, with a track record of implementing features from technical requirements and UI designs, debugging, and troubleshooting. Familiar with basic deployment using Docker and Nginx, and experienced in explaining technical concepts clearly as a programming instructor. Curious, persistent when facing errors, eager to learn new technologies, and comfortable working both independently and in a team.

## TECHNICAL SKILLS

**Programming:** PHP, JavaScript, TypeScript, Python, C#, SQL
**Web & Frameworks:** HTML, CSS, Tailwind CSS, Laravel, Vue.js, React, Next.js, FastAPI
**Backend & Database:** REST API, MySQL, PostgreSQL, SQLAlchemy, Eloquent ORM, Laravel Sanctum, RBAC
**Tools & Deployment:** Git, GitHub, Docker, Docker Compose, Nginx, Vite, Postman, Agile/Kanban
**Practices:** Debugging & Troubleshooting, Testing (pytest), Requirement Analysis, Code Quality (ruff, pyright)
**Game & AR:** Unity, C#, Augmented Reality
**Soft Skills:** Problem-Solving, Team Collaboration, Communication, Self-Learning

## SELECTED PROJECTS

**Smart Laboratory Management System (SLMS)** | Full-Stack Web Application github.com/fanhdt/main-slms

- Designed and developed a full-stack laboratory management system for UPI Kampus Cibiru using Agile Kanban and Git/GitHub.
- Built a decoupled Vue 3 SPA and Laravel REST API covering laboratory, asset, booking, service, and user management.
- Implemented authentication and role-based access control (RBAC) using Laravel Sanctum and permission management.
- Developed booking, asset management, service/package, payment, QR, and RFID workflows.
- Managed frontend and server state with Pinia and TanStack Vue Query.
- Set up Docker, Nginx, object storage, realtime communication, and payment gateway components.

**Thinker** | Personal AI Assistant Backend (Python) github.com/fanhdt/thinker

- Designed a personal AI assistant backend focused on long-term memory, RAG, planning, reflection, and personalization.
- Built REST APIs with FastAPI, asynchronous SQLAlchemy, and PostgreSQL.
- Implemented memory operations (create, update, delete) and retrieval-based context injection.
- Developed a multi-provider LLM architecture through a common provider abstraction.
- Added automated testing and code-quality tooling using pytest, pyright, and ruff.

## EXPERIENCE

**Teaching Assistant**, Universitas Pendidikan Indonesia, Kampus Cibiru August 2026 - Present

- Assisted in teaching basic web programming (HTML, CSS, JavaScript) through practical lab exercises.
- Helped students debug programming errors and explained technical concepts to learners of different levels.

**Web & Game Development Instructor**, SMK Telkom September 2025 – January 2026

- Taught web development (HTML, CSS, JavaScript) and introductory game development (Unity, C#).
- Guided students in building simple projects and understanding core programming concepts.
- Helped students debug and resolve technical problems during practical sessions.

**Software Development Intern**, Badan Riset dan Inovasi Nasional (BRIN) February 2025 – June 2025

- Contributed to developing a mobile Augmented Reality (AR) application as part of a project team.
- Implemented application features based on project requirements and design specifications.
- Performed debugging and troubleshooting throughout the development process.

## EDUCATION

**Universitas Pendidikan Indonesia, Kampus Cibiru**, Bachelor of Education in Multimedia Education 2026

- Final Project: Smart Laboratory Management System, a full-stack web application developed with an Agile Kanban approach. Supported with thesis funding from the Multimedia Education Study Program.

## CERTIFICATIONS

- Dicoding Indonesia, Belajar Dasar Pemrograman JavaScript October 2025
- Dicoding Indonesia, Belajar Membuat Front-End Web untuk Pemula October 2025
- Dicoding Indonesia, Belajar Dasar Pemrograman Web October 2025
